DATE: FEBRUARY 5, 1993

The Pro-Kids Act of 1993 (attached) recently introduced in Congress would require, if enacted, the Administrator of EPA to "issue guidelines for instituting and enforcing a nonsmoking policy at each indoor facility where children's services [services funded in whole or in part by federal funds] are provided." The Act also would require the EPA Administrator to issue a report to Congress within two years providing an "assessment of the legal status of smoking in public places."
